You are invited to attend, Type 2 diabetes update
with:

Dr Dan Murtagh
GP, Richill Health centre

A. Menarini Farmaceutica Internazionale SRL (Menarini) have organised this educational programme to bring together healthcare professionals to discuss:

- Insight into modern management of T2 diabetes in primary care
- Understanding the role and importance of sglT2i's in the management of type 2 diabetes

Please contact Karen Polly at kpolly@amenariniuk.com if you would like to attend. The deadline to register is Wednesday 15th May. This meeting is for HCPs practising in Northern Ireland. This is your personal invitation, please do not share.

Invokana® (canagliflozin) is indicated for the treatment of adults with insufficiently controlled type 2 diabetes mellitus as an adjunct to diet and exercise. (Refer to SmPC for full indications).
